-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 6) ☐ Other: _____.

DETAILED ACTION

Drawings

1. The drawings are objected to because there are no descriptive labels for all elements of figures 1 and 2. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 7-9 are objected to because of the "etc." recited at line 4 of claim 7. Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-6 are allowed.
4. Claims 7-9 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.

Conclusion

5. References Cowie et al (6,717,992), Lehmann et al (US 2004/0190596), and Dowla et al (US 2004/0202230) are cited because they are pertinent to the UWB communication system. However, none of the cited references teaches or suggests, in combination, the arrangements of method of communicating useful information taking the form of an analog or digital voltage between at least one transmitter and at least one receiver using UWB signals, said at least one transmitter including a subcarrier modulator, a high frequency oscillator and a transmission antenna, and said at least one receiver including a reception antenna and amplification and demodulation means for discriminating said useful information in a signal received at said reception antenna, which method consists in: on transmission, generating a narrow frequency band high frequency carrier, modulating said high frequency carrier **using a subcarrier with a modulation index at least equal to 10**, and modulating said subcarrier using said useful information, and on reception, demodulating said carrier to extract therefrom said

Art Unit: 2611

subcarrier and demodulating said subcarrier to extract therefrom said useful information as recited in claim 1 and further limitations of its dependent claims 2-9.

6. This application is in condition for allowance except for the above formal matters.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DON N. VO whose telephone number is (571) 272-3018. The examiner can normally be reached on MON - FRI (9:00-6:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, JAY PATEL can be reached on (571) 272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
